

April 3, 1974

PRESIDENT: Senator Cavanaugh handling the committee amendments?

SENATOR CAVANAUGH: Well, Senator Stull can take his. I think they're a substitute for the committee amendments.

PRESIDENT: Senator Stull, what do you want to do? Is that correct Senator Stull? Senator DeCamp.

CLERK: Senator Stull asked to withdraw his amendments.

SENATOR DE CAMP: Mr. President and members of the Legislature. This was originally a liquor bill and the committee and certain senators wanted to gut it to achieve a different purpose which I'm happy to do. And the purpose was to get mileage for the state employees, senators, etc. equivalent to the sheriff's mileage, isn't that right, Senator Stull? That's the purpose of the bill at this time.

SENATOR STULL: This....we passed a bill here some time ago that raised the mileage for all county officials to 16¢ and it does the same thing for the sheriff's when they bring people down to the institution. But I think when they drive in the county they get 18¢. But this would make it uniform for all county and state employees.

PRESIDENT: Senator Stull, are you pressing your motion or withdrawing it or what?

SENATOR STULL: I withdrew my motion.

PRESIDENT: Senator Stull has withdrawn his motion.

CLERK: So there is pending the committee amendments.

PRESIDENT: We have the committee amendments pending. Which one of you wants to handle the committee amendments? Senator Cavanaugh?

SENATOR CAVANAUGH: Well, the committee amendments as I understand it do the same thing that Senator Stull is trying to do which is gut the bill and provide for mileage. Isn't that right, Senator Stull? I'll move the adoption of the amendments.

PRESIDENT: All right. Senator Stull....Senator Stull, do the committee amendments do the same thing as the amendments you had proposed and then withdrawn?

SENATOR STULL: Mr. President and members of the Legislature. It's my understanding that the Miscellaneous Subjects Committee gutted this bill and they made it for state employees. My amendment would have taken care of the county employees. But previously we've adopted a bill and it's already passed so I wanted to withdraw the reference to the county employees. So now this only affects the state employees, is my understanding of the bill.

PRESIDENT: All right now, who wants to explain the committee amendments? Senator DeCamp....Senator Stull.

SENATOR STULL: I'll tell you, it's my understanding that the committee amendments actually is the bill now and it would increase the mileage for all state employees to 16¢ a mile and that's what it does. And...

PRESIDENT: Senator DeCamp.
